

Beyond Curtailment (Booths 19-22) (/initiative/4Wd0/beyondcurtailment-booths-19-22)

The Water Department should partner with schools and community organizations to do hands-on watershed restoration work and teach water conservation practices such as rainwater catchment, graywater recycling, climate-appropriate landscaping, and safe use of composting toilets.

I think this is a wonderful idea. No criticism from me + think we should do this and it will help really make us leaders in conservation efforts, especially in California. It will also help people install what I call "Conservation Improvements" at their homes.
